ACADEMICS

1. PRE PRIMARY: Our school has a separate pre-primary wing with state of the art infrastructure that gives our blooming buds of LKG & UKG a healthy learning atmosphere and homely feeling. The main objectives of pre-primary school are to make our budding kids to adapt to the surroundings, instill learning habits, improve their capacity for learning and develop physical, mental, and social skills. Our mother teachers provide the kids with an environment that encourages interaction with other kids, builds strong friendships, and also help them come out of their comfort zones. Consequently, kids overcome their shyness and mingle with others.

They also foster in the kids the necessity of respecting the feelings of other toddlers, their surroundings as well as listening to their instructions. They also teach them to handle their belongings properly and not damage them. Kids are taught to develop the attitude of sharing and working in a team. Various scholastic and co-scholastic activities are planned and conducted according to the specially designed curriculum. Learning by doing and play way methods are practiced to teach the kids.

2. PRIMARY: According to national policy of our country, the aim of primary education is to bring desirable changes in the behaviour of the learner. It helps in the all-round development of a child’s personality and inclusion of healthy attitudes and good values.

Our Primary wing provides learners of classes I to V with a number of opportunities to learn Hindi and English to a level where they can communicate their ideas easily. They are taught Mathematics to develop ability in four fundamental numerical operations and to be able to apply these to solve problems in their daily life. They also learn the method of inquiry in Science and begin to appreciate Science and Technology. The school promotes in our children-nationalism, human dignity, good sanitary habits, aesthetic sense and cooperative spirit at this level. At our primary school, development of character and personality of our children through initiative, leadership, kindness, honesty and team work is shaped. Besides academics, children are exposed to art, music and games classes where they hone their prerequisite skills in their
desired field. Various indoor and outdoor activities and competitions are conducted to test their knowledge, talent, skills, leadership, teamwork etc.

3. MIDDLE: The middle school consists of classes VI to VIII. At this stage children face adjustment problems in the family as well as in society. Our middle school curriculum has taken into consideration the social demands especially in the case of girls. At this stage, children are trained and guided to operate at higher level of complexity, involving greater knowledge, deeper understanding and a grasp of principles.

Therefore, the school helps children develop an understanding based on knowledge, through a proper study of History, Geography and the values cherished in our constitution. At this level, Sanskrit as a third language is introduced to students.

At this stage children study Science (Physics, Chemistry and Biology) and Mathematics as separate subjects to develop their reasoning, logical and scientific abilities & attitudes. They learn how to relate Science and Mathematics to life. Much emphasis is laid on social, emotional, cultural, mental and physical development and wellbeing of children. Art & Craft, Music, Computer, GK and Games classes are held regularly for the students to hone their skills in those subjects. We follow CBSE curriculum.

4. SECONDARY: Our secondary section comprises classes IX&X. We strictly follow CBSE curriculum and prepare students for AISSE; All India Secondary School Examination.

Students are, here, provided with opportunities to achieve excellence in learning. Like CBSE, our school envisions the all-round development of students in consonance with the holistic approach to education. Therefore, we offer our students a broad and balanced understanding of subjects including languages, Mathematics, Science and Social Science to enable students to communicate effectively, analyze information, take informed decisions, construct their worldview in alignment with constitutional values and move ahead in the direction of becoming productive citizens.
Our secondary section creates congenial and healthy learning environment where students acquire adequate knowledge and skills in other core areas like Health and Physical Education, Life Skills, Values Education, Art Education, Work Education and other Co-Scholastic areas.

At this stage we encourage and train our students to achieve cognitive, affective and psychomotor excellence, enhance self-awareness and explore innate potential, imbibe 21st century learning, literacy and life skills and promote goal setting and lifelong learning.

5. SENIOR SECONDARY: Students of classes XI & XII come in this category. They are offered Science and Commerce streams to study. We not only prepare students for AISSCE but also for various competitive examinations through classroom teaching and guidance.

Self-learning is promoted in students at this stage to help them explore their potential in acquiring substantial knowledge and skills through academic rigors. They are fostered confidence in them to evolve as discerning young adults with a sense of real self-esteem having true values and principles with greater academic orientation and research skills in core academic areas. For grooming the overall personality and character of our students, we expose them to co-scholastic subjects; General Studies, Health and Physical Education and Work Experience.

Our school puts in great efforts to incorporate ethical, social, physical and cultural values in our students through scholastic and co-scholastic learner centered activities to help become productive and responsible resources for society.

BOARD AND CURRICULUM:

The Aditya Birla Public School, Kharia Khangar is affiliated with CBSE New Delhi. The school strictly follows the latest and regularly updated curriculum as prescribed by Central Board of Secondary Education. The curriculum aims to achieve school’s scholastic and co-scholastic excellence. Our school curriculum equips students with necessary life skills, promotes self-learning, gives them opportunities to identify their latent and innate talent and develops interest, creativity, innovation and logical and scientific approaches. Ultimately, it works for the holistic development of each and every child of our school.

REMEDIAL CLASSES: Our school always takes into account the improvement in the learning capacity of all children with respect to their mental abilities. For the progress of below average and slow learners, we conduct remedial classes after assessment of their academic
performance through weekly class tests and teachers’ feedback. Individual attention is paid to every student in remedial classes, Easy and different teaching methods are used to make slow learners understand the basic concepts and applications of the subjects. Students are encouraged to ask their teachers to clarify their doubts.
Master Priyanshu Vaishnav and Master Utsav Mundra of class XII batch 2018-19 were awarded with CBSE Merit Certificate for securing 100 percent marks in Informatics Practices in the AISSCE 2019.
